

mBranch is Here!

Access all your CFCU accounts, transfer money — via your smartphone!

Community First Credit Union is the ONLY local financial institution with mobile banking.

- ✓ Easy to set up
- ✓ Ultimate in convenience
- ✓ Always with you
- ✓ It's FREE!

Upfront Notes:

- ▶ Registering your smartphone via the application or browser is a separate action. Doing one, does not register you to the other.
- ▶ We recommend going to your respective phone's app store for the fullest, richest CFCU mBranch experience.

Easy to set up via our applet ...

First you MUST have a CFCU home banking (eBranch) account, and you MUST have an e-mail address associated with that account.

1. Go to your respective app store (iPhone, Droid, Blackberry).
2. In search, keystroke in Community First.
3. When you see our icon , click it.
4. Download the free applet.
5. Once downloaded, click on the CF icon. You will be asked for your CFCU account number and password. Upon entering and clicking "submit," you will get an instant message that tells you to check your e-mail for further instructions. Check your e-mail.
6. That e-mail will contain a one-time use, four-digit PIN. Login again, but this time add that four-digit PIN as a suffix to the end of our password. Note: this PIN has a life of only 12 hours. You will be required to use it just this one time.
7. Done. You can now access CFCU's mBranch (mobile banking) whenever, wherever via your smartphone.

Easy to set up via any browser ...

First you MUST have a CFCU home banking (eBranch) account, and you MUST have an e-mail address associated with that account.

1. Keystroke in CFCU's web address: comfirstcu.org
2. Our site should instantly recognize that you are accessing via a smart phone and will redirect you to our mobile site (enhanced readability, simplified site).
3. Select mBranch (at top of list). It will then ask you to login. Upon entering and clicking "submit," you will get an instant message that tells you to check your e-mail for further instructions. Check your e-mail.
4. That e-mail will contain a one-time use, four-digit PIN. Login again, but this time add that four-digit PIN as a suffix to the end of our password. Note: this PIN has a life of only 12 hours. You will be required to use it just this one time.
5. Done. You can now access CFCU's mBranch (mobile banking) whenever, wherever via your smartphone.
